National 4-H Week October 4-10, 2009

Massachusetts 4-H will celebrate throughout October and November by conducting a food drive and working with youth to conduct the 4-H National Youth Science Experiment.

The third annual 4-H food drive will kick off in October.

EDEN
EXTENSION DISASTER EDUCATION NETWORK

Communities Prepare for H1N1 Virus

With the arrival of Autumn and the return of students to school, health concerns increase about the H1N1 virus.

More information can be found on the national [Extension Disaster Education Network](#) website.

INSIDE EXTENSION

UMass Extension Specialists Published in Trade Journal

This month, national trade journal Greenhouse Management and Production features an [article](#) by UMass Extension [floriculture](#) specialists Tina Smith and Paul Lopes on its cover. Smith and Lopes describe the transformation of Olson's Greenhouses in Raynham by its new young owners into a more environmentally and economically sustainable enterprise.

UMassAmherst OUTREACH

USDA's Cooperative State Research, Education, and Extension Service (CSREES) is our federal partner, providing federal assistance and program leadership for numerous research, education, and extension activities.
